Wuppertal Institut

The Wuppertal Institute turns 30

ZUKUNFTSWISSEN: shaping the future in an innovative, transformative and crisis-proof way

What can we learn from the COVID-19 pandemic, and how can we become more resistant to crises? Is it still possible to achieve a transition to a socially and environmentally equitable world? This decade will decide whether or not the challenges posed by the climate crisis can still be overcome. This calls for bold innovations and a comprehensive transformation in the arenas of mobility, industry, energy, resources, urban living, nutrition, prosperity, and consumption.

Under the banner of **ZUKUNFTSWISSEN: shaping the future in an innovative, transformative and crisis-proof way** the Wuppertal Institute invites you to attend a virtual **conference featuring lectures and discussions** on the occasion of its 30th anniversary on **23 June 2021**. The event will be held in German. A link to the registration website will be sent together with the official invitation shortly.
